Fault Codes	Cause	Solution
F01	Dead battery	Ask technician's help to check the battery
	An appliance is drawing power from the battery being charged	Disconnect the appliance and try to charge again
	Charging rate is too small relative to size of the battery	Choose a higher charger rate or use a higher current charger
F02	Charger voltage is too high relative to battery.	Verify the battery voltage and select the correct charging voltage.
F03	Charger error, charge current is higher than selected	Ask technician's help to check the charger
F04	The charger is overheating	Make sure the vents are clear. The charger will resume charging when cooled
F05	Does not enter the float stage after 24 hours or the battery is defective	Disconnect the charger with battery and recharge again. Do not use the battery for other purposes when it is charging. Check the battery conditions.
F06	Reverse polarity occurs	Reconnect the battery clips correctly

GENERAL LIMITED WARRANTY

The manufacture, New Focus Auto Tech, Inc. (NFA), makes this limited warranty to the original purchaser at Wal-Mart Stores, Inc. and Walmart.com and this warranty is not transferable or assignable.

New Focus Auto Tech, Inc. (NFA) warrants this battery charger for one (1) year from the date of purchase at Wal-Mart Stores, Inc. and Walmart.com against defective material or workmanship that may occur under normal use and care.

1. If NFA quality service technicians determine that the likely cause of the battery charger malfunction is due to either defective material or workmanship, then the battery charger product will be repaired at the discretion of NFA.
But it is the obligation of the original purchaser to forward the battery charger product, with the proof of purchase, prepaid, to either NFA or its authorized representatives.
2. The cost of transporting products to NFA and its representatives for warranty service is the responsibility of the purchaser.
3. NFA does not provide any warranty for any accessories and object used with this product that are not manufactured by NFA and approved for use with this product.
4. NFA does not provide any warranty if the product be misused, subjected to careless handling, repaired, or modified by any individual and entity other than NFA employee.
5. NFA makes no warranty other than this limited warranty and expressly excludes any implied warranty including any warranty for consequential damages.
6. This is the only express limited warranty and NFA neither assumes nor authorized anyone to assume or make any other obligation towards the product other than this express limited warranty.
7. NFA makes no warranty of merchantability or fitness for purpose of this product and expressly excludes such from this limited warranty.

APPENDIX

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.
